# Summer Fun Corners Activity

We will be using this activity for a prewriting discussion.

The students will pick a corner and share fun things they have done or would like to do. After a few minutes (when everyone at the corner has had a chance to talk) the students will pick a new corner and talk again.

We will then create a “seeds” section in our writing journals entitled “Activities/Adventures” and create a list of ways to have fun, etc.

This could also be used as a social studies activity. Students could be asked to brainstorm places in their community, their state, their country, or in the world.
